**10 Step Action Plan for a Safer, More Effective Interior Fire Attack: **

COURSE PRESENTED By: TIMOTHY E. SENDELBACH
Editor-in-Chief
FireRescue Magazine

Today's fireground continues to mystify even the most knowledgeable and experienced fire service experts. Changes in modern building construction, coupled with the advancements in firefighting technology have brought about a desperate need to adjust our traditional tactics. This high-impact, high-energy program will provide attendees with a 10 Step Action plan on how to safely initiate an effective interior fire attack including interactive sessions involving; size-up, hose line deployment, fire stream management, progress reporting, and much more.

Session 2: Start Time 1330 hours, Offered November 6th & 7th

Fireground Leadership – The Who, What, and How of Fireground Safety & Effectiveness:

COURSE PRESENTED By: TIMOTHY E. SENDELBACH
Editor-in-Chief
FireRescue Magazine

The fire service has long acknowledged that the modern fireground continues to present new risk and challenges related to the safety and health of firefighters, yet few if any consider the risk of failed leadership. This high impact, high-energy program will address the issue of fireground leadership and provide critical information on what it takes to be a strong leader supportive of safety and survivability on the modern fireground. Included in this program are real-life incidents of failed leadership and the tragic results that followed. This program is a must for fire officers and anyone seeking to develop a safer, more effective fireground.

Contact Hours: 4 hours / program repeated each day
